Dear Sir / Madam,

**Re: Media release**

---

We are enclosing Media Release on receipt of Letter of Award from NTPC Vidyut Vyapar Nigam Limited for supply of power from gas based power projects, which will be disseminated shortly.

Thanking you.

Yours faithfully,  
**For Torrent Power Limited**

**Rahul Shah**  
**Company Secretary & Compliance Officer**  
Encl.: As above

## Torrent Power to supply Crunch Period power to meet country's high demand during Summer.

- Torrent has 2730 MW Gas-based Power Generation Capacity.
- The Company has been awarded contract by NTPC Vidyut Vyapar Nigam Limited (NVVN) under the govt's Crunch Period scheme to overcome high power demand during Summer.

**March 01, 2024:** Torrent Power Limited (TPL) has emerged successful under competitive bidding and received Letter of Award from NVVN on March 01, 2024, for supply of power from its Gas-based Power Plant during forthcoming Summer's crunch/high power demand periods from March 16, 2024 to June 30, 2024 period.

Government of India, through NVVN, has come up with the crunch / high-demand period scheme since last year to harness Gas-Based Power Generation (GBPG) so as to overcome country's rising power demand, which particularly peaks during certain periods in summer months and, also, certain periods after monsoon. Gas-based Power, with its high efficiency, flexibility, and much lower emissions, is considered well suited to meet the requirement during such high power demand periods.

Power will be supplied by TPL from its DGEN, Dahej, Power Plant. As per terms of the agreement between NVVN and TPL, 770 MW capacity has been contracted with minimum 388 MUs of guaranteed power to be supplied during March 16, 2024 to June 30, 2024 period. The actual offtake of power, in addition to the minimum guaranteed, will depend on the power demand as encountered during the approaching summer.

### About Torrent Power:

Torrent Power, the ₹ 25,694 Crs integrated power utility of the ₹ 37,600 Crs Torrent Group, is one of the largest companies in the country's power sector with presence across the entire power value chain – generation, transmission and distribution.
